

## Technical Assistant – Food Manufacture

Location: Gloucestershire

Contract Type: Permanent to start asap

Hours – 40hrs per week incl. 30 min break. Flexible start and finish times. 25 days holiday + bank holidays

Salary – 24k

### The Company

Pulsin is a rapidly growing health food manufacturing business trading in the UK and overseas. The successful applicant will be joining a small, committed, and hard-working team in a fun, relaxed and innovative working atmosphere.

### The Role

Reporting to Technical Manager

The ideal candidate will be passionate about the food industry and willing to go the extra mile to improve site standards. Key responsibilities include,

- Supporting the technical team in the implementation and maintenance of the company's BRC and customer standards
- Conducting compliance audits
- Checking technical compliance paperwork
- Liaising with suppliers, customer and other external bodies where required
- Taking samples and arranging product tests
- Providing ethical support
- Supporting other members of the technical team and covering for absence
- Ad hoc tasks as required

### The Requirements

#### Essential

- Good attention to detail
- Proficient in the use of IT programmes such as Microsoft Excel and Microsoft Word
- Highly organised
- Able to use own initiative
- Strong written and verbal communication skills
- Positive can-do attitude

#### Desirable

- Degree in food science or similar
- Food Safety Certificate
- Experience working to BRC standards
- An understanding of HACCP principles
- Knowledge of similar manufacturing environment
- Auditing experience
